Re: Avery Landing, Idaho

Dear Mr. Adelson:

Please know that I represent the Division of Environmental Quality, Water Quality Bureau and have been requested by my clients to contact you. The Division has yet to receive a response from you as promised in your August 4, 1989 letter regarding cleanup of the petroleum contamination at the Avery Landing site in Idaho. As indicated to you in the Division's letter dated July 25, 1989, the petroleum contamination at the site traces back to operations of Pacific Railroad Company which is now CMC Real Estate Corporation.

State water quality regulations require that petroleum contamination be contained from entering state waters and be cleaned up and disposed of.

The Division again requests that a cleanup of the Avery Landing site be performed by CMC Real Estate Corporation. Please

USEPA SF

advise me on or before Friday, December 15, 1989, as to what action CMC intends to take toward cleanup of the petroleum contamination.

Sincerely,

A handwritten signature in cursive script, reading "Susan A. Burke".

Susan A. Burke
Deputy Attorney General
